BOOT OVERVIEW

THREE SOLUTIONS FOR EVERY SITUATION

The different architectures are selected by the designers based on the different features they offer in terms of performance, fit, foothold, weight and ease of use. In this way, the advantages of each design can be exploited for different activities, from on-piste skiing to touring via freestyle.

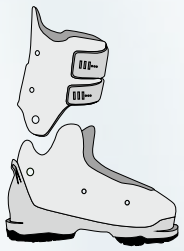

OVERLAP DESIGN

Power • Precision • Control

Delivers immediate power transfer, strong rebound and precise control. Ideal for traditional on-piste skiing where maximum precision is essential.

- **RACE:** DRS WC, DRS
- **ALL MOUNTAIN:** VELOCE (W) • VELOCE MAX (W) VELOCE SPACE (W)

CABRIO DESIGN

Versatility • Flexibility • Less effort

Provides smoother, progressive power transmission, dynamic rebound and excellent shock absorption ensuring direct lateral response and superior adaptability on uneven terrain.

- **ALL MOUNTAIN / FREERIDE:** CABRIO MV (W) CABRIO LV (W)
- **FREERIDE TOUR:** CABRIO LV FREE (W) CABRIO MV FREE (W)
- **FREESTYLE:** IL MORO LINE

BONDED SHELL

Lightness • Anatomy • Walkability

Offers a higher elastic modulus and excellent torsion resistance, delivering great sensitivity and superior agility on every turn.

- **TOURING:** QUANTUM EVO (W) • QUANTUM FREE (W) • QUANTUM SPACE

WORLD CUP / RACE

Built for competitive skiers seeking the perfect combination of *speed* and *precision*. DRS offer a *stiff flex* and *custom-fit* options that ensure maximum *power transfer* and unbeatable *control* during high-speed descents. Designed for World Cup pros and committed racers, these boots are engineered to take your performance to the next level.

WC LINER

The liner is designed and assembled in Italy.

FULL SERVICE SET

World Cup models come with 3 mm lifters, 5 mm lifters and buckle protector in the box.

BOOTBOARD

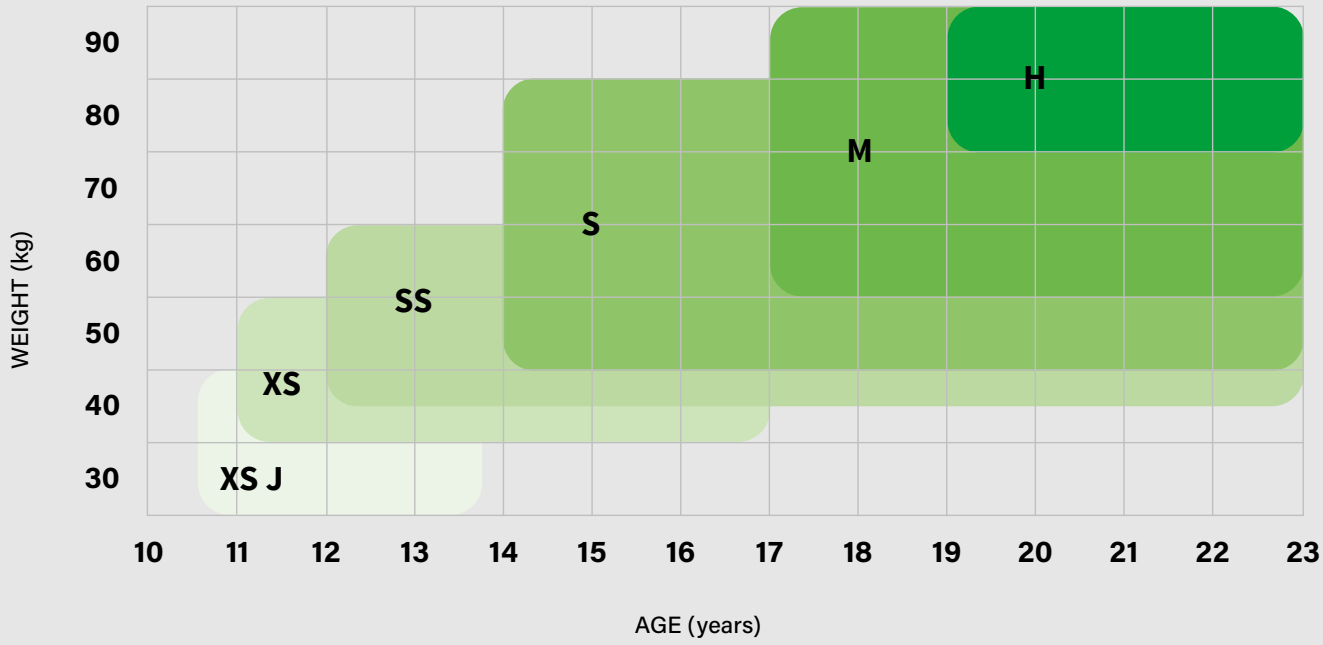

Stance can be adjusted by grinding one or two steps of the bootboard.

READING THE LINE YOU DEFINE

Dalbello's DRS boots are engineered for skiers who prioritize speed, precision and power on the racecourse. With a stiff flex and a precise fit, these boots deliver ultimate control and responsiveness for competitive athletes. Push your limits with the DRS, trusted by professionals for peak performance on the mountain.

DRS WC TARGET GROUP

The DRS WC series make available for athletes a competition boot set composed by different plastic blends in order to satisfy every need. The following chart provides a guideline to help you choosing the boot correctly.

FORWARD LEAN CONTROL

The forward inclination of the cuff can be adjusted by changing the rear insert.

PURE

A robust outer layer on the liner of recycled PU for an improved power transmission.

CABRIO DESIGN

3 piece construction with a 99 mm LAST.

DYNALINK

The Dynalink system mounts coaxially to the pivot; when the lever closes, it engages at 45°, drawing the foot back and downward for superior heel support.

CONFIDANCE FOR ALL CONDITIONS

The Cabrio collection expertly combines innovative design and advanced technology to meet the diverse needs of skiers. Whether you're carving down groomed trails or exploring off-piste terrain, the Cabrio collection offers exceptional versatility and comfort.

Whether it's floating through deep powder in Hokkaido, chasing fresh lines in Whistler or carving your favourite run at your home mountain, the backcountry is where freedom truly begins. Dalbello steps into this world with a new generation of boots built for those who live for the descent but embrace every climb along the way.

The Cabrio FREE PRO line is designed for skiers who want it all: power on the downhill, comfort on the ascent and the confidence to push further into open terrain. From ambitious freeriders to passionate free-tourers, these boots provide a smooth, responsive feel that keeps you in control across varied terrain.

REMOVABLE TONGUE

The removable tongue ensures greater freedom of movement for the ankle when walking uphill.

NEW CABRIO SKI-WALK

The Ski-Walk has the interaction surface with the shell curved to automatically adapt to the canting adjustment.

FLEX CONTROL

The flex block control inside the boot can beunscrewed and screwed back into a lower position.

FORWARD LEAN CONTROL

The forward inclination of the cuff can be adjusted by changing the rear insert.

CABRIO FREE PRO

NEW

TOURING

Quantum FREE is the high-end touring boot for advanced backcountry riders, delivering *pure freeride performance* without compromising handling on either the climb or the descent. With its *lightweight design* and *exceptional flexibility*, this boot offers *optimal comfort* on the ascent and *reliable stability* on the way down, making it the perfect choice for demanding backcountry adventures.

The Il Moro PRO is built for riders who live for creativity on the mountain. With a bold street-style look and a smooth, responsive feel, it's the go-to boot for skiers who want confidence on big jumps, solid support on landings and comfort that lasts all day.

Designed for the park, pipe and anyone who loves to push their freestyle limits, the Il Moro Pro delivers freedom of movement, reliable control and a fit that feels secure from the first lap to the last. Whether you're sending new tricks or playing around the resort, this boot keeps your style sharp and your riding even sharper.

3D DENSITY WRAP LINERS

Forming technique for the best first fit.

RUBBER BOOTBOARD

Ride harder, land softer!

Engineered for freestyle riders, this advanced rubber bootboard absorbs impact significantly reducing stress on your feet during big landings.

DYNALINK

The Dynalink system mounts coaxially to the pivot; when the lever closes, it engages at 45°, drawing the foot back and downward for superior heel support.

FORWARD LEAN CONTROL

The forward inclination of the cuff can be adjusted by changing the rear insert.

JUNIOR

Dalbello's Junior ski boots are designed to provide the perfect fit for young skiers, combining *comfort*, *durability* and *performance*. With *adjustable features* and a *secure fit*, these boots support growing feet, helping build confidence on the slopes. *Easy to put on and take off*, they offer just the right amount of *flexibility* to make skiing fun for the youngest adventurers as they start their skiing journey.

COMFORTABLE PERFORMANCE

The thermally insulated liner and optimized fit ensure young skiers stay comfortable and enjoy all-day fun on the slopes.

OVERLAP CONSTRUCTION

More direct transmission of forces from leg/foot to ski for growing children (9-13 years old, size range 175-265 MP).

ENHANCED GRIP

Pre-fitted GripWalk soles improve safety and comfort, making walking easier and more secure on and off the slopes.

MADE FOR YOUNG SHREDDERS

Dalbello's Junior Ski Boots offer the perfect fit for young skiers, combining comfort, durability and performance. With adjustable features and a secure fit, these boots provide growing feet with the support they need to build confidence on the slopes.
